

## Enabling WMDC in Windows 10

1. Install Windows Mobile Device Center
2. Open Command Prompt (as admin)
  - a. Execute two commands
    - i. `REG ADD HKLM\SYSTEM\CurrentControlSet\Services\RapiMgr /v SvcHostSplitDisable /t REG_DWORD /d 1 /f`
    - ii. `REG ADD HKLM\SYSTEM\CurrentControlSet\Services\WcesComm /v SvcHostSplitDisable /t REG_DWORD /d 1 /f`
3. Go to Services
4. Stop and change log on properties to "Log in as" Local System Account to the services below:
  - a. Windows Mobile-2003-based device connectivity
  - b. Windows Mobile-based device connectivity
5. Restart both services

Devices should now be able to connect via USB to your Windows 10 PC.

### Note:

It has been found that the user may need to disable "Advanced Network Functionality" on mobile device.

1. Start > Settings > Connections > USB to PC > Uncheck "Enable advanced network functionality"
